Minutes:

Minutes were provided to the members prior to the meeting.

Old Business:

Safety Ledges -

A cross section of the wall of a pond was presented by Dennis Renander. This presentation highlighted the safety ledge area. It appears a number of safety ledges have a considerable amount of silt on them. This is noted by the peninsulas they form in the pond. This occurs mainly at the drain inlets. The silt could present a safety issue. Since a pond engineering study is off the table the committee has suggested a three prong approach to this issue;

- 1 – Renander will meet with the City of Fishers to ascertain how they would like to see any documentation presented.**
- 2 - Documentation of the depth of safety ledges. A uniform collection and recording of the necessary documentation will be made.**
- 3 – If necessary a petition will be signed by the residents and sent to Pulte once there is appropriate documentation. The findings will also be presented to the City of Fishers**

Photo cells for the fountain lights –

The cost of photo cells for the fountains is being budgeted in the 2019 budget and if approved will be done in the spring of 2019.

Pond Concerns -

- B** – Authorized repair of waterfalls and pumps 8/21/18
- D & E** – Peninsulas of grasses indicating silt on safety ledges – BG algae
- F** – Large Hole on the NE bank
- J** – Fountain? Shoreline erosion?
- M** – Hole on SW corner ½ way up the bank
- O** – Scheduled for repair in Oct

Pond Captains –

The committee approved having Pond Captains for monitoring and reporting fountain problems. The purpose is to assure prompt reporting and follow-up of problems and/or failures with the pond fountains and/or lights. Attached is a list of those who have signed up and also shows an opportunity to sign up to be a pond captain.

New Business:

Budget/Finances - **no report**

Adjournment: The meeting was adjourned at 11:45.

Next Meeting: Stay Tuned – A September date has not been set as of this writing
